

Concurrent Verification of models between WP 3 & WP4

Kick-off meeting

- Scheduled for the 19th of March
 - GoTo Meeting - WP4 Telco on Testing 11 00 - 12 30
- Things needed:
 - Check all available models
 - Know who the responsible for each of the models is

Objectives

- Assign a responsible for each of the Subset-026 parts (radio communication, breaking curves, etc)
- Guarantee that the same variables and functional decomposition is used, in accordance to the Data Dictionary

Model integration

- Use of the same input/output according to the Data Dictionary (ongoing integration is being made by Uni-Bremen and DLR on the DMI and Breaking Curves)

Thank you for
you time
